

RydeSmart®

GPS-based tracking to manage the where, when and how of your fleet.

Let RydeSmart's on-board technology provide you the tracking, location and performance management solution to help control your fleet costs, while optimizing driver efficiency.

Information to Drive Your Business

You can't be with every driver for every mile, but with RydeSmart, you can be. RydeSmart integrates data from GPS, cell tower and your truck's engine (ECM) to provide real-time information about vehicle and driver performance. With RydeSmart, you can improve your fleet operations through:

- Vehicle monitoring for location, speed, MPG/KPL, idle time and direction
- Real-time fleet and vehicle performance metrics to coach drivers
- Easier compliance and reporting
- Detailed information about long-haul operating costs
- Integration with existing fleet management systems

- Controlled access for data accuracy and security
- Connection to Ryder Roadside Assistance for fast service

Web-based System

Convenience and Flexibility

Monitor your fleet or just a particular vehicle from anywhere. The RydeSmart telematics architecture provides a web-based Control Panel for access to your fleet information.

Automated

Interstate Fuel Tax (IFT)

Calculations and Reporting

If your vehicle is IFT liable, RydeSmart simplifies IFT compliance by automating mileage information and electronically recording and submitting odometer information by state/province*.

Go "Green" on the Road

RydeSmart supports your company's environmental initiatives by helping you:

- Control vehicle idle time for reduced emissions
- Better manage MPG/KPL performance to reduce fuel requirements
- Minimize paper-based reporting and documentation

Easier, Accurate HOS Compliance Reporting

RydeSmart Plus One product helps your company comply with DOT Hours of Service (HOS) requirements mandated by the Federal Motor Carrier Safety Administration (FMCSA). Gain more accurate reporting as you eliminate manual trip logs and let drivers focus on what they do best.**

*Non-Ryder fuel and toll receipts must be turned in separately.

**All product options may not be available in Canada. Please contact your sales representative for complete details.

RydeSmart for iPad®

Mobile, Accessible and Informed

It's the rare fleet manager who stays glued to a desk all day. With RydeSmart for iPad, you can take the office with you providing convenient remote access and mobility. Use RydeSmart for the iPad to bring more flexibility to your job, when you're in the office and when you're not.

No Upfront Expense

It's Easy to Get Started

All you need to start using RydeSmart is your telematics-equipped Ryder vehicle. This unique approach gives you better control over your fleet without any up-front capital expense. There are no up-front capital fees, no installation cost, and your monthly fee covers both service and regular vehicle data usage.
