

Fast Track Lease™

From Ryder®

STRAIGHT TRUCK FOUR-YEAR LEASE TERM
HELPS YOU CONTROL COSTS AND INCREASE
RELIABILITY

Now you don't have to spend valuable time and resources managing and controlling your fleet costs. Ryder's Fast Track Lease – with a reduced four-year term – helps you minimize downtime and increase reliability on selected Non-CDL Freightliner M2 dry van straight trucks.

Manage Costs and Increase Satisfaction

Controlling maintenance costs means more than just lowering repair costs. When you consider the high cost of breakdowns, the loss of driver time and the price of missed deliveries, budgets can quickly spiral out of control. A Ryder Fast Track Lease provides an option to meet your transportation needs with the benefit of a reduced four-year term. With comprehensive maintenance service, predictable costs, less downtime and more customer satisfaction, a Ryder Fast Track Lease might be right for you.

Free Up Capital While You Reduce risk

Vehicle ownership can eat up your working capital and leave you with residual risk at the time of sale. But unlike ownership, leasing doesn't require a large capital investment that can take away from other business activities and opportunities. A Ryder Fast Track Lease with a four-year term provides the financial benefits of full service leasing with added flexibility.

A Ryder Fast Track Lease Is Good For Business

- ▶ A reduced four-year term
- ▶ 20,000 to 40,000 miles per year
- ▶ 24 ft. to 26 ft. dry van bodies available
- ▶ Comprehensive maintenance and repair services
- ▶ Complete maintenance records and history
- ▶ State-of-the art technology
- ▶ Standardized cab and chassis specifications
- ▶ Safety services
- ▶ Annual DOT inspection
- ▶ Ryder customer response center
- ▶ Permitting, fuel tax reporting
- ▶ Other optional services available
